# ABOUT THE COMPANY

The company **RUDOLF JELÍNEK** produces alcoholic beverages, especially fruit distillates and spirits. The tradition of the production of fruit distillates in Vizovice dates back to 1585. **RUDOLF JELÍNEK** has always been a company based on traditions that have already been kept alive for 125 years, and so we believe our name and brand will grow and flourish for many more years to come.

Thanks to all our company's traditions, our products are known all over the Czech Republic and indeed all over the world. The company is continuing with one of these traditions, namely the export of products abroad, something Rudolf Jelínek began with our kosher spirits to overseas markets, namely the USA, in early 1934.

The flagship of our company is plum brandy (slivovitz), which is produced in several variations (white, gold, jubilee, kosher, and more). We also produce other branded fruit distillates of the highest quality, such as pear, apricot, cherry and apple.

Our premium products are our kosher distillates, which are approved and certified by the American Orthodox Union.

In 2003, the company began planting its own plum orchards on

the southern slope of the Vizovice Valley, in the area called Těchlov. After five years, we harvested our first harvest of Vizovice plums and therefore a new tradition - the production of a limited series of Vizovice plum distillate. At the end of 2013 we expanded the area of the orchards and now dispose of 84 ha of plum orchards, 15 ha of cherry orchards and 80 ha of apricot orchards.

# FAMILY RESERVE

07282

**FAMILY RESERVE 15 YO 45.3% 0.7L** is a unique distillate, representing our experience of over one hundred years in aging fruit spirits. The Family Reserve Slivovitz is the result of the efforts, experience and patience of the master distillers from Vizovice. Only the finest hand-picked fruits of various plum varieties were used for its production, which involved the three-stage distillation of ripe plum mash and maturation in oak barrels for 15 years at varying, strictly defined temperatures and alternating air access. The result is a golden-colored distillate with a harmoniously delicate taste and a distinctive woody undertone.

# SLIVOVITZ

*“Slivovitz is the most famous Czech fruit distillate, which has been prepared for you in Vizovice by RUDOLF JELÍNEK from the best plum mash since the 19th century. The production processes have been passed down from generation to generation by our master distillers, the latest technology is used to ensure the highest quality.”*

**GOLD SLIVOVITZ 45% 0.7L** - gold slivovitz is unique in the world of fruit distillates and is traditionally produced in Wallachia by our master distillers, in Vizovice. The basis of this distillate is classic slivovitz. The Jelinek brothers and the French company Denis Mounié together gave birth to this unique gold slivovitz. The RUDOLF JELINEK company has continued this tradition up to the present day. The production of slivovitz begins with the three-stage distillation of ripe plum mash. The distillate is then stored for aging in oak barrels. Aging in barrels transforms the classic slivovitz into a unique distillate, characterized by its golden color and aroma like cognac or brandy, with harmonious fruit flavors and subtle woody undertones.
